

Mill Park Neighborhood Association General Meeting

November 26th, 2018

In attendance: Trevor, Sam, Heather, Violet, Emily, Meredith, April Bertelsen with PBOT, and 3 neighbors.

Agenda:

Financial update: \$2119.12 is in the bank account. This is after reimbursement for the SOLVE clean-up necessities.

The SOLVE clean-up was held on November 4th along 1.2 miles of 122nd Avenue and 45 trash bags were filled up. Kinara Fender also hosted a clothing and toiletries drive for Wy'East and Street Roots.

April Bertelsen representing PBOT attended to provide updates on the SE 122nd corridor safety development plan. Several neighborhood outreach and input sessions have been held to include several languages. Initial plans for improvement have been made which are being brought back to the community to review and provide further comment.

122nd is a high crash rate corridor. There are some issues with adequate and consistent sidewalk and bike lane safety. 3 Alternative potential plans were discussed. Detailed information can be found at: www.portlandoregon.gov/transportation/112ndAve

Time was provided to contribute comments and also vote with colored dots on which types of safety measures neighbors would wish to prioritize.

Correction to September notes: Commissioner Eudaly oversees PBOT, not Nick Fish.
